The background is a lush, sunlit forest scene. Sunlight filters through the dense canopy of green leaves and brown tree trunks, creating a warm, golden glow. In the lower-left foreground, a glowing blue butterfly with intricate patterns on its wings is perched on a green fern. A trail of shimmering blue light particles curves across the lower half of the image, starting from the butterfly and extending towards the right. The overall atmosphere is magical and serene.

The summer butterfly
camp by Nina

Last year I was at a special summer camp.
The butterfly camp was really cool and it was
never boring, we always did something exciting.

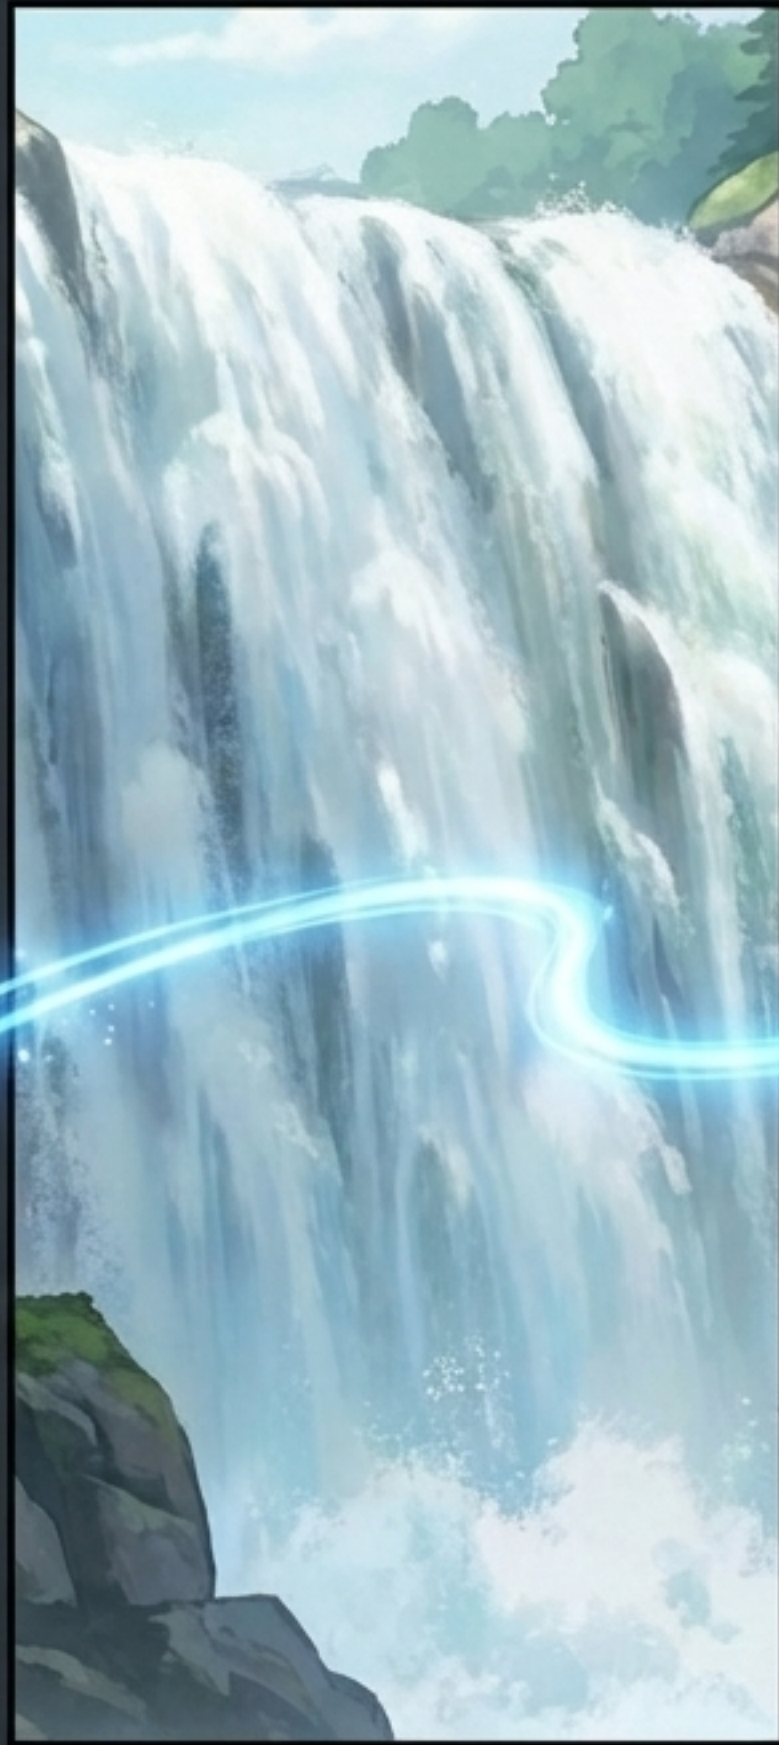

There were so many butterflies, they were really pretty. Every day you could experience new things there .

It was not just a camp, it was the best of Australia.
One day we went paddle boarding on a lake.

On the last day we went canoeing by a waterfall and then we could climb up there up there and jump into the water

Finally we even built a tree house.

The best day was the first day,
everyone was really friendly.

It was the best camp ever.
